

Cold Beverage Collection

Crystal clear, strong, sturdy and 100% plant-based—we'll cheers to that!

- Made from renewable clear PLA
- Commercially Compostable & PFAS Free
- Custom Print Available

ASTM D6400
ASTM D6868

PFAS FREE

- Meets ASTM D6400 & ASTM D6868 standards for commercial compostability where they will break down into soil and the key nutrients our food needs to thrive.

Better Earth's Cold Beverage Collection is made for sustainable sipping and slurping. The collection features a wide variety of sizes, sip or straw lids, and a modern, minimalist design indicating its compostability. The collection is PFAS-free and made from the naturally renewable, commercially compostable PLA, and can be fully customized to feature your brand. The Cold Beverage Collection is a perfect choice for beer, smoothies, sodas, parfaits, and more.

Did you know?

We've recycled less than 9% of all plastics ever produced in the world –including plastic cold cups. The rest either finds its way into landfills, rivers, shorelines or on ships to other countries to deal with. Unlike plastics, compostables are made from renewable resources, and can be composted where facilities exist into a nutrient-rich soil amendment, a highly valuable resource to American farmers.
